

*CLIENT TESTIMONIAL.*

We have always found this Company to be prompt efficient and meticulous in all work carried out.

As the graffiti problem we had was of a very offensive nature, we thought the commercial units may be out of service for a while but this was not the case.

The engineers worked constantly to a high standard until all the graffiti and shadowing was removed and our clients could continue to trade within 24 hours.

Their service provided the perfect finish and satisfied clients, therefore we would be happy to endorse Cooper Halliwell Cleaning Division as a reliable professional and capable company and have every intention of using them again.
